

# Yogaraj.V

## Education

B.E.Computer Science and Engineering  
Annapoorana Engineering College

8.2

Aug2022 - May 2025

## Projects

ZnO-Based Water Purifier Web Application  
Developed a web app using biogenic ZnO nanoparticles and ML models to simulate and predict water purification efficiency quality parameters. Implemented data preprocessing and feature engineering techniques using Python libraries like Pandas and NumPy & MySQL.(Team Project).

## Web development

This report is the reflection and also the journey of my three months internship period along with the high lights of what I learned through errors, work responsibilities, and the importance of internship program at Aalpha Solution, Salem.

The knowledge I have gained as a new developer on web application development, new frameworks, and also how to work in an office environment is splendid.
